

LDM SERIES:

DC to DC Power Supply

PC:60010001

This compact DC-DC power supply provides a regulated DC output which can be adjusted to suit most applications.

Input voltage	9-32V DC
Output voltage	3-6V DC V.Reg
Output current (max)	250mA

AC Mains Adaptor

PC:60000110 (AUS)

This AC Mains Adaptor provides a regulated 3 volts DC (Australian model) or 5 volts DC (USA model) output.

Input voltage	110/240V AC
Output voltage	3V DC V.Reg
Output current (max)	500mA

Battery Pack (#1)

PC:95049900

This particular switched battery pack uses 2 standard 'AA' Alkaline batteries producing 3 volts DC output. Please note this is an LDM product only.

Output voltage	3V DC
Output current (max)	250mA

Custom Cabling and Connection

Laserex Technologies has the capability to create for you, a custom design, to suit your laser application. Choose between cable lengths and materials, with a choice of connectors or a number of other safety additions.

Ask the friendly Laserex sales staff for assistance.
